Limited Supercharger Rebuild Warranty Cost-Shared Warranty

928 Motorsports warrants that your rebuilt supercharger will arrive in good, serviceable condition ready to install and use.

We have no control over the application or the operating parameters of the supercharger once it leaves this building. It is for these reasons that we do not warrant the longevity of the rebuild.

Warranty Conditions: If the supercharger does not function correctly immediately after you receive it, it must be reported within 7 business days.

Abuse, improper installation, and racing: If, upon returning the supercharger to us for a warranty claim, we see signs of abuse, improper installation or racing, then there is **NO WARRANTY.**

Contact us at 920-485-0928 and request a Return Authorization Number.

If the warranty conditions (above) are met, we will rebuild the unit a second and final time, and you will be charged only for the parts needed. There will be no charge for our labor under this warranty.

Each party will bear the cost of shipping one-way. You pay to ship it back to us, we will pay to have it shipped back to you (ground service only).

This is our complete supercharger rebuild service warranty. No other warranty is expressed or implied.
